

AAPS has uncovered minor errors in our past filings and wish to make amendments to our reports.

AAPS filed forms with the FEC that included errors that were so minor that the employee that completed the reports - this employee is no longer employed here - did not bring them to my attention. Because this employee is no longer with us it is now impossible for us to answer why the error was not brought to my attention.

It seems that we had an outstanding debt listed on our reports in the amount of \$3000. This debt was divided among 4 debtors: \$500 debt for each Ron Klien Campaign Committee Skip Campbell Campaign Committee and Jim King Campaign Committee. These committees are non-federal campaigns. There was also a \$1500 debt to Lane Evans Campaign Committee which is a federal campaign.

A possible explanation of this discrepancy can be appreciated from the fact that the checks were not cashed and voided a few months after they were issued. We had a new FEC reporting software system at the time - we are still using the same company - and it is my belief that the employee did not record the information correctly. We have discussed this with that software vendor and are looking at subsequent voided checks and are ensuring that adequate safe-guards are in place to guarantee this does not happen in the future.

However that doesnt go to the more germane question of why the debt was carried over for five years. I do not believe it is of any advantage to AAPS to have had that debt on the books for any period of time. In any event it is not possible for us to determine exactly why this wasnt picked up earlier.

I believed each report to be - accurate - timely and precise although - as it turns out - there was a recording of an inaccurate debt.

We will be filing - in the next few days - several amended reports to reflect the correct debt status.

Sincerely

Stephen Montes D.O.

AAPS PAC Treasurer
